How to play Magpies Mixed September 2026

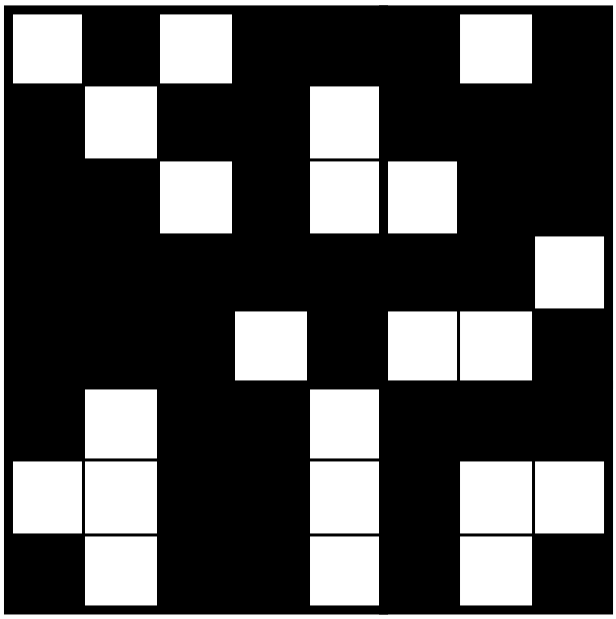

NONOGRAMS

1. The numbers beside every row and above every column give the lengths of the blocks of filled cells, in order, with at least one empty cell between two blocks.
2. A filled cell is a cell a magpie left something shiny in. An empty cell is nothing. Work out from the numbers alone which is which.
3. Exactly one picture fits every number, and it can always be reached by reasoning, never by guessing. A cross is your own note that a cell stays empty.

ONE WORKED EXAMPLE

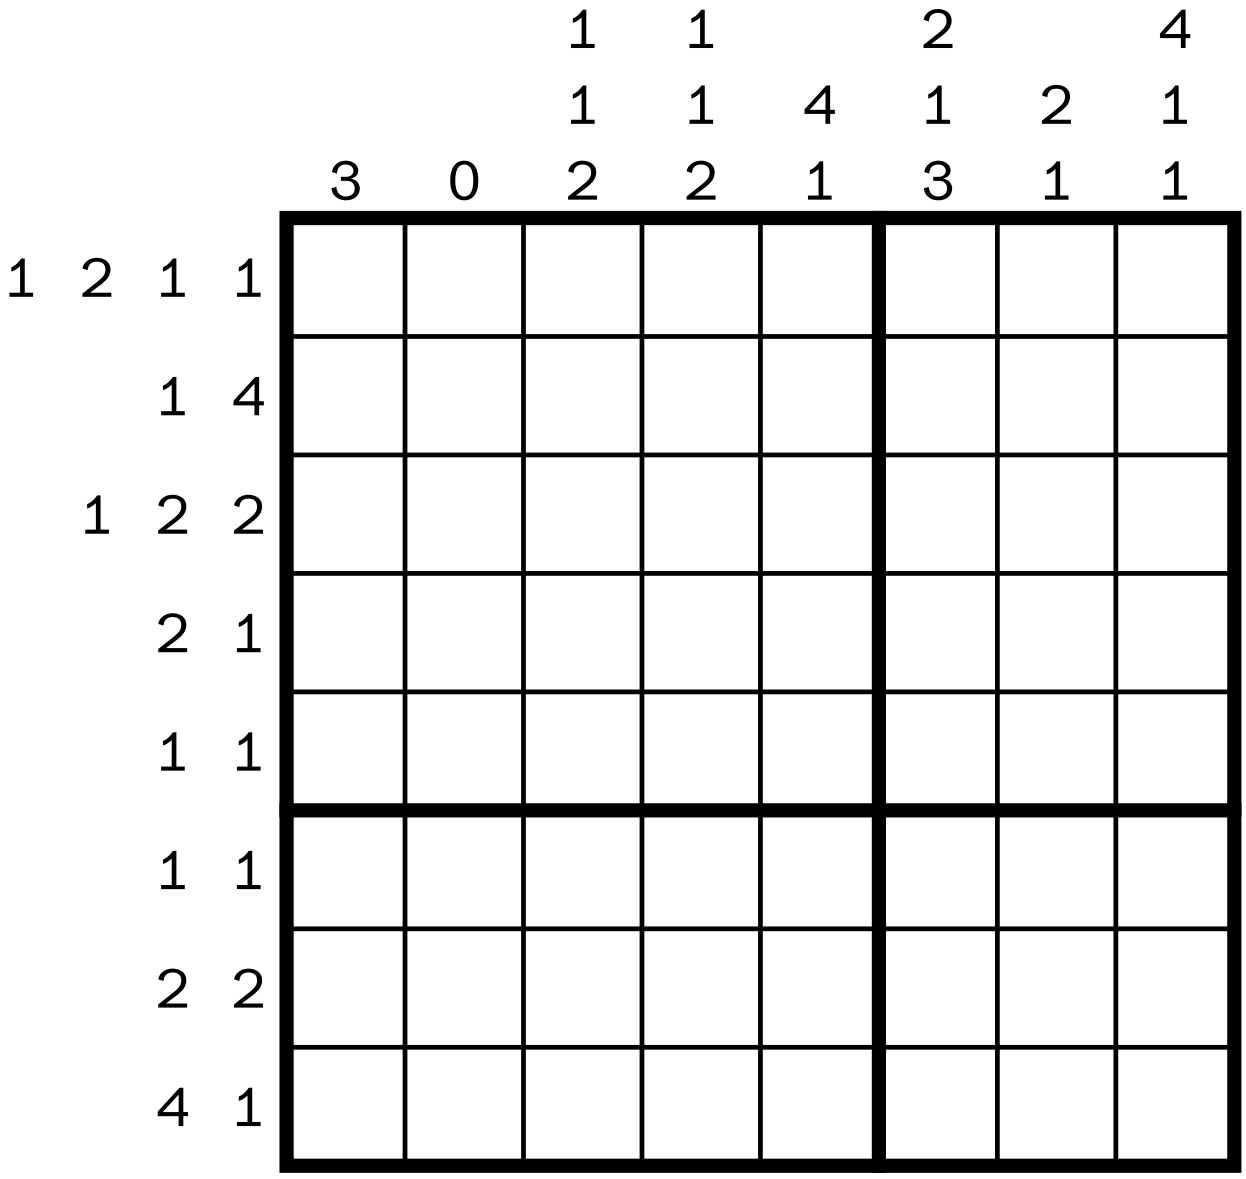

ITS ONLY SOLUTION

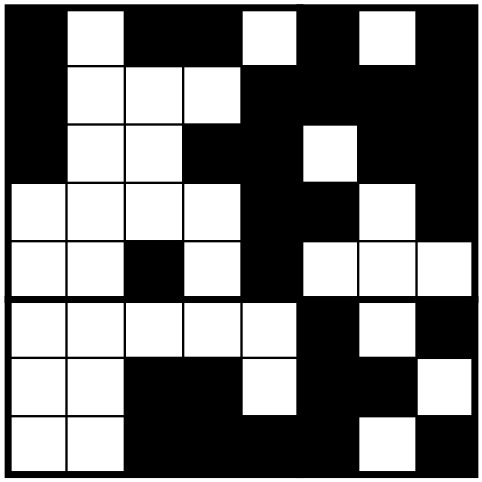

Puzzle numbers and levels: 1 to 13 easy, 14 to 28 medium, 29 to 43 hard, 44 to 50 challenge. Solutions start on the page marked Solutions at the back.
